The Federal Aviation Administration has announced the release of their long pending interim rules for operation of model aircraft and drones. All operators of remotely piloted aircraft are required to register **ONE TIME**. You do **NOT** have to register each airplane. The Academy of Model Aeronautics has recommended that members hold off on registering their model aircraft with the FAA until advised by the AMA or until February 19, the FAA's legal deadline for registering existing model aircraft. The latest information from AMA is available on their website at: <http://amablog.modelaircraft.org/amagov/2016/01/11/update-uas-registration-frequently-asked-questions/>
